

Zahraa Hubail

Senior Programming Student | Full-Stack Developer | Aspiring Software Engineer
+973 3373 5771 | zahraa.hubail8@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Senior Programming student at Bahrain Polytechnic with a 3.97 GPA and hands-on experience developing enterprise applications during an internship at the Shura Council. Skilled in ASP.NET Core, React, SQL Server, and RESTful APIs, with experience delivering full-stack web applications, automation solutions, and machine learning projects. Seeking software engineering opportunities to contribute to scalable and impactful software solutions.

Education

Bahrain Polytechnic | Bachelor of Information & Communications Technology (Programming)

Sep 2023 – Present

- GPA 3.97 / 4.00
-

Professional Experience

Shura Council, Kingdom of Bahrain | Software Developer Intern

Jun 2026 – Aug 2026

- Developed SharePoint pages, lists, and libraries for internal council operations based on departmental requirements.
 - Automated correspondence workflows using Microsoft Power Automate, reducing manual data entry and recurring errors.
 - Contributed to a React-based attendance management system and API testing using Postman.
-

Projects

Course Attendance & Absence Management System | Shura Council

Aug 2026

- Developed a role-based attendance and absence management system in React and jQuery with a Node.js backend for tracking employee attendance across training courses, with attendance and permission tracking, manual record management, and course administration controls.
- Built analytics dashboards and attendance reporting with server-side PDF report generation in Node.js for course administrators.

Rentify | Property Leasing & Maintenance Platform | Bahrain Polytechnic

Jun 2026

- Built a full-stack web application in ASP.NET Core with a SQL Server backend for property leasing and maintenance management, implementing role-based access control for landlords, tenants, and maintenance staff.
- Implemented real-time notifications with SignalR, automated lease status transitions, and a responsive management dashboard.

Stock Market Analysis | Machine Learning Project | Bahrain Polytechnic

Dec 2025

- Built a machine learning pipeline in Python using Pandas and Scikit-Learn, analysing 34 million+ stock records, applying K-Means clustering for risk segmentation and Linear Regression with engineered features for price prediction.
- Achieved 1.36% MAPE on price prediction through full data preprocessing, feature engineering, and model evaluation.

Mood-Based Dish Recommendation Application | Build Hackathon

Sep 2025

- Developed a web application in HTML, CSS, and JavaScript that recommends dishes based on users' selected moods during a three-day hackathon hosted by Reboot, Zain Bahrain and the Bahrain Polytechnic Developers Club.
-

Technical Skills

Programming: C#, Java, Python, JavaScript, PHP, SQL, Swift

Frameworks & Technologies: ASP.NET Core, .NET 9, React.js, jQuery, Node.js, SignalR, RESTful Web APIs, HTML/CSS, Bootstrap

Databases: SQL Server, MySQL

Tools & Platforms: Git, GitHub, Gitea, Visual Studio, VS Code, Postman, SharePoint, Power Automate, Firebase, Unity, Xcode, Figma

Other: OOP, Full-Stack Development, iOS Development, Machine Learning, Pandas, Scikit-Learn

Soft Skills

Problem Solving | Analytical Thinking | Communication | Team Collaboration | Adaptability

Certifications & Awards

- Completion of CyberSecurity Principles Workshop at Shura Council
- Completion of Professional Development Workshops, Bahrain Polytechnic - Leadership, problem-solving, communication, negotiation, critical thinking, and AI-era professional skills
- Completion of INJAZ AI-Arab / PMI / PMIEF Virtual Internship Programme - project management fundamentals, teamwork, and professional development
- Best Speaker Award, Toastmasters - awarded for the best speech delivered at a Toastmasters meeting
