Portfolio: zahraa-portfolio-one.vercel.app

PROFESSIONAL SUMMARY

Senior Programming student at Bahrain Polytechnic specialising in backend and full-stack development. Proficient in C#, ASP.NET Core (.NET 9), RESTful Web APIs, SQL Server, React, and Python, with delivered projects spanning full-stack web applications, iOS applications, and machine learning pipelines. Completed a software engineering internship at the Shura Council, building SharePoint solutions and contributing to a React-based attendance system. Seeking an internship software engineering role.

EDUCATION

Bahrain Polytechnic — Bachelor of Programming (in progress) | GPA: 3.97 / 4.00

Isa Town, Bahrain | Sep 2023 – Jun 2027 (expected)

Jidhafs Secondary Girls School — Tawjihiya Certificate, Science Major | 99.1%, with Honours

Bahrain | Sep 2020 – Jun 2023

TECHNICAL SKILLS

Programming Languages: C#, Java, Python, JavaScript, PHP, SQL, Swift, Octave

Frameworks & Libraries: ASP.NET Core MVC, .NET 9, Web API, SignalR, React.js, jQuery, Node.js, Bootstrap, HTML5, CSS3, Firebase, Cloudinary, Metasploit Framework

Software Development: Object-Oriented Programming (OOP), Full-Stack Web Development, RESTful Web APIs, iOS Mobile Development, Database Design & Management, Game Development (Unity), Enterprise Architecture

Machine Learning & Data Science: Linear Regression, Logistic Regression, K-Means Clustering, Pandas, Scikit-Learn, Feature Engineering

Databases: SQL Server, MySQL, SQL Server Management Studio (SSMS)

Tools & Platforms: Git, GitHub, Gitea, Visual Studio, Visual Studio Code, Postman, Xcode, Unity, Figma, SharePoint, Microsoft Power Automate, NetBeans, Linux

Networking & Cybersecurity: Cisco Networking, Cybersecurity Fundamentals, Penetration Testing, Cryptography Basics

PROFESSIONAL EXPERIENCE

Shura Council, Kingdom of Bahrain — Software Developer Intern

Manama, Bahrain | Jun 2026 – Aug 2026

- Developed and modified SharePoint pages, lists, and libraries supporting internal council operations, working directly with departmental users to define requirements.
- Automated the incoming and outgoing correspondence workflow in Microsoft Power Automate, replacing the manual entry of sender/receiver reference codes and sequence numbers and eliminating a recurring source of data-entry error in official records.
- Contributed to a course attendance and absence system built with React and jQuery, validating API endpoints through Postman before release.
- Managed version control and collaborative code review using Gitea across the internship codebase.

Build Hackathon — Participant (Reboot, Zain Bahrain & Bahrain Polytechnic Developers Club)

Bahrain | 2025

- Built a web application with a team under a three-day limit that recommended dishes based on a user's selected mood, covering front-end, back-end, and data layers with HTML, CSS, and JavaScript.

PROJECTS

Rentify — Property Leasing & Maintenance Platform

ASP.NET Core MVC, Web API (.NET 9), SignalR, SQL Server | 2026

- Built a full-stack web application for property leasing and maintenance management, implementing role-based access control for landlords, tenants, and maintenance staff.

- Implemented real-time notifications with SignalR, automated lease status transitions, and a responsive management dashboard.

Time Voyager — Unity 3D Action-Adventure Game

Unity 6, C# | 2026

- Developed a first-person action-adventure game spanning six distinct playable environments, built on a modular architecture with reusable systems across all levels.
- Implemented quest, inventory, save/load, NPC interaction, enemy AI, combat, and level-transition systems in C#.

Stock Market Analysis — Machine Learning Project

Python, Pandas, Scikit-Learn | 2025

- Built a machine learning pipeline analysing 34 million+ stock records, applying K-Means clustering for risk segmentation and Linear Regression with engineered features for price prediction.
- Achieved 1.36% MAPE on price prediction through full data preprocessing, feature engineering, and model evaluation.

Course Attendance & Absence Management System

React, jQuery, Node.js | 2026

- Developed a role-based attendance and absence management system for tracking employee attendance across training courses, with attendance and permission tracking, manual record management, and course administration controls.
- Built analytics dashboards and attendance reporting with PDF report generation for course administrators.

The Binge Box — Movie Review Web Application

PHP, MySQL | 2026

- Developed a full-stack movie review platform with user authentication and separate admin and user permission levels.
- Built search, rating, and commenting features backed by MySQL, with secure server-side validation on all input.

Nourish Bahrain — Food Donation iOS Application

Swift, Xcode, Firebase, Cloudinary, Figma | 2025

- Developed a full-stack iOS application connecting donors with recipients to redistribute surplus food and reduce waste.
- Integrated Firebase for authentication and data services and Cloudinary for media storage; designed the UI/UX prototypes in Figma.

CERTIFICATIONS & AWARDS

- CyberSecurity Principles Workshop at Shura Council (2026)
- Intrapreneurship: Problem-Solving Skills and Creativity in the Age of AI Workshop (2026)
- Decision Making Skills and Emotional Intelligence in the Age of AI Workshop (2026)
- Leadership Skills and Mindset Workshop (2026)
- Communication and Presentation Skills Workshop (2026)
- Negotiation Skills and Critical Thinking in a Globalized Business World Workshop (2026)
- Cross-Cultural and Inclusive Communication Skills in a Globalized World Workshop (2026)
- INJAZ Al-Arab / PMI / PMIEF Virtual Internship Programme — project management fundamentals, teamwork, and professional development (2025)
- Ethical Use of AI Applications in Learning Certification (2024)
- Best Speaker Award, Toastmasters — awarded for the best speech delivered at a Toastmasters meeting (2018)

SOFT SKILLS

Problem Solving | Analytical & Critical Thinking | Team Collaboration | Communication | Time Management | Leadership | Decision-Making | Adaptability | Presentation & Public Speaking | Continuous Learning

LANGUAGES

Arabic (Native) | English (Fluent)
